Principles Of Abilities And Human Learning
Michael J.A. Howe 2012-10-02
This book is about human abilities and the ways in which people acquire and extend them. It contains many useful facts about people's learning and the mental processes that make it possible. Chapter one looks at the kinds of events that create learning, and identifies some important general principles of human learning. Chapter two examines the capabilities that children gain in their early years. They acquire a number of basic capacities that they can draw upon throughout life. These include language, reading, and numerical abilities. The acceleration of early abilities is also considered. Chapter three raises a number of intriguing questions about abilities. What exactly are they? What are their most important characteristics? How can different capabilities and items of knowledge become joined to one another? The answers are surprisingly different from what common sense predicts.; Chapter four Considers The Important Contributions Of Motivation. A Person Has To Have good reasons for engaging in learning activities. Motivation supplies incentives for doing whatever is necessary in order to make learning happen. Chapter five investigates more advanced attainments. It looks at the effects of practising and other ways in which individuals extend their expertise. The use of memory aids and learning techniques is examined. Other topics include the influence of intelligence, creativity, the possible roles of innate gifts and talents, and child prodigies and geniuses. The best way to apply discoveries concerning learning and the acquisition of abilities is to use them for our own daily activities. Chapter six addresses the question of how to learn and study more effectively. It introduces ways of reading more effectively, and gives advice on improving writing skills and studying for exams. The aim here is to help the reader to succeed better at gaining needed capabilities.

Teaching and Learning History - Geoff Timmins 2005-04-18 'This book, informed by exceptionally wide inquiry into current history teaching practices in the English-speaking world, is a real achievement. The authors convey current context and challenges with great insight, and they move through possibilities in sequencing, content, skills and assessment, without strident comment, extending our knowledge of options and pitfalls in the process' - Peter N. Stearns, Provost, George Mason University 'Comprehensive, persuasive, and at all times accessible in style and argument, this text both encourages and empowers university historians to review and enhance their teaching practices. All key facets of programme development are explored with reference to an extensive and well-chosen range of international examples. The chapter on the historian's skills and qualities of mind is one of several that I will be referring to frequently' - Jeanine Graham, Senior Lecturer, History, University of Waikato '... the varied findings make fascinating reading ... this book should be required reading for everyone involved in teaching history: there is plenty here for us all to learn from' - ESCalate 'In providing such a clear, informative and thoughtful exploration of the current state of history in higher education, and in helping to raise the quality of critical debate about its future, this book contributes greatly to the growing scholarship of teaching and learning.'
in the discipline. It should also become a vital resource for all historians who wish to honour the old dictum that, in teaching as in research, the one duty we owe history is to rewrite it' - Professor Paul Hyland, Director of History in the Subject Centre for History, Classics and Archaeology '[E]xtremely useful... provides a thought-provoking and useful discussion concerning the task of actually teaching history at university level... This timely book needs to be read widely, and the many issues it raises should command our closest attention' - Higher Education Review Over the last 10 years or so, history as an academic discipline has become steeped in controversy and introspection. Additional areas of interest have opened up, fresh perspectives and approaches have been offered, and new teaching and learning strategies have been advocated. There has been an increasing emphasis on producing well-qualified graduates equipped with the skills, knowledge and attitudes to cope with the changing demands of the world of work. This book suggests how these issues may be managed. The authors identify and discuss the underlying principles, and consider ways in which they can be applied at module and programme levels. The Teaching & Learning in the Humanities series, edited by Ellie Chambers and Jan Parker, is for beginning and experienced lecturers. It deals with all aspects of teaching individual arts and humanities subjects in higher education. Experienced teachers offer authoritative suggestions on how to become critically reflective about discipline-specific practices.

**Introduction to Health and Safety in Construction** - Phil Hughes 2012-09-10 This NEBOSH-endorsed textbook is matched to the latest syllabus of the National Certificate in Construction Safety and Health. Within the construction industry the need for specialist health and safety training is high due to the high risks involved. This is reflected in recent legislation such as CDM 2007 and explains the consistent demand for courses and learning materials. The text is easy to read, highly illustrated in full color, and supported with
checklists, report forms and record sheets used currently in the industry. Students are supported with end-of-chapter questions, a study skills chapter and specimen assignments including specimen answers. As NEBOSH actively grow their qualifications internationally, demand for this book and it's sister titles continues to increase overseas. High growth markets are the Middle East, Malaysia, India and China.

**Writing about Music Workbook**-Alistair Wightman 2012-02-22 Suitable for exam boards: Edexcel, AQA, OCR, WJEC The Writing about Music Workbook will develop students' skills in writing about music for AS, A2 and undergraduate level. Exercises appear at every stage to challenge and provide examination practice for students. These range from naming musical features and spotting grammatical errors to devising essay plans and analysing sample answers. Beginning with fundamental writing requirements, this workbook moves the student on to describing the features of a musical work, as well as how to make comparisons and contrasts between specified pieces. There is advice on how to approach research, what to retain and reject, and how to structure an essay. Detailed, analytical and dissertation-style essays are addressed, as well as writing programme notes. The Writing About Music Workbook promotes the development of skills which will be of use in many areas of academic life: collecting information, selecting relevant material, presenting arguments for and against particular propositions, and expressing ideas effectively and correctly in English. "Wightman has achieved just the right tone, with very clear explanations... I would feel confident giving it to pupils to read in their own time, as it’s very easy for them to work from it, making it a useful resource to reinforce the comments I write on their essays... I think it's probably one of the most genuinely useful books of its type." - Russell Millard, Head of Academic Music, Charterhouse
